❑ **Exploring Watersheds**

*April 6, 2019 – Alabama Museum of Natural History*

Join the University of **Alabama Museum of Natural History** and Legacy for a day of watershed education training. Learn how to use your local resources to enhance your watershed curriculum with hands-on learning activities. We will explore water, water resources, watersheds, Alabama biodiversity, and more!

❑ **Bio-Blitz at Birmingham Botanical Gardens**

*May 11, 2019 – Birmingham Botanical Gardens*

Want to engage in a global citizen science project that is fun and easy to do? Join Legacy and educators from the **Birmingham Botanical Gardens** for this 1-Day workshop that will teach you how to plan and conduct a Bio-Blitz using the free [iNaturalist](#) smartphone app. The challenge is to find and document the MOST species as possible in the given time. You and your students could become actual citizen scientists!

❑ **A Sense of Scale!**

**Using your Earth to Teach Earth Systems Science**

*June 10-12, 2019 – McDowell Environmental Center*

Join Legacy and **McDowell Environmental Center** for this Earth Science workshop that uses nature, objects found in your schoolyard, and digital resources like Google Earth to help learners explore the world on a variety of scales. We'll zoom into small objects using Private Eye techniques, and zoom out to explore our position in space and time! Expect to go on a few hikes, collect some samples to take back to your classroom, and connect with other teachers. We'll share some of our fun curricula and offer tips on how to adapt it to your classroom and learners!

❑ **Alabama Rivers Book Workshop**

*September 21, 2019 – Turtle Point Science Center*

Join **Turtle Point Science Center**, AWW (**Alabama Water Watch**) and Legacy as we travel down rivers through time to encounter the rich human history and natural wonders that have defined Alabama. Along the way, we will celebrate an array of magnificent rivers filled with unique plants and animals, shaped over the ages by remarkably diverse geology. Accept the challenge to restore and protect our rivers for their economic, cultural, and ecological benefits, but most of all because it is the right thing to do.

❑ **Native & Invasive Plant Species of Alabama**

*October 12, 2019 – Birmingham Botanical Gardens*

Takes place at the beautiful **Birmingham Botanical Gardens**. We will discuss various Alabama plant species, how they are related to each other and their diverse habitats, and their ecological relationships with other Alabama species in both the built and natural environment. We will also cover the identification, management, and ecological impacts of Alabama's invasive plants.

❑ **Bicentennial Rivers:**

**200 Years of Going with the Flow**

*November 9, 2019 – Cheaha State Park*

Join **Cheaha State Park**, AWW (**Alabama Water Watch**) and Legacy as we travel down rivers through time to encounter the rich human history and natural wonders that have defined Alabama. Along the way, we will celebrate an array of magnificent rivers filled with unique plants and animals, shaped over the ages by remarkably diverse geology. Accept the challenge to restore and protect our rivers for their economic, cultural, and ecological benefits, but most of all because it is the right thing to do.

**\*\*1-Day Legacy excursions** require a \$35.00 non-refundable application fee for Non-Members or a \$30.00 non-refundable fee for Legacy Members.

**\*\*3-Day Legacy excursions** require a \$100.00 non-refundable application fee for Non-Members or a \$75.00 non-refundable fee for Legacy Members.

- Participants will receive a certificate of completion, professional development hours, and many **FREE** classroom materials.
